

## Multiple Thread Wraps 15

This is the same pattern as MTW 14 except the addition of blue outside the box.

To build this pattern it requires a 12 step wrapping sequence for each pass.  
The blue wraps OUT from the center line on each side.  
The orange wraps IN from the outer box.  
The blue wraps OUT from the outer box.

The straight lines are achieved by wrapping one thread at a time in each sequence during a pass around the pattern. Notice the four diamonds at the corners of this pattern, 2 split vertical and 2 split horizontal.
