

Multiple Thread Wraps 20

This pattern is another variation of the 8-point star wrap.

This pattern is formed by:

Wrap the center thread OUT both ways with a plus-1 method.

Wrap the outer box OUT only one thread at a time.

This pattern will be just a little larger than the original box layout, because it is wrapped out one thread at a time. The larger the outer box, the more room there is for the pattern to develop inside the box.
